

# **Institution's Innovation Council**

Madan Mohan Malaviya University of Technology, Gorakhpur

## **TRASH BASH**

*"Creativity transforms the ordinary into extraordinary."*

*- Albert Einstein*

Get ready to ignite your Imagination turn scraps to masterpieces and unleash your imagination across the skies of innovation and creativity. Push the limits of creativity, transforming discarded materials into functional works of art. Witness the magic of upcycling as young minds breathe new life into scrap materials and get ready to get amazed.

**Institution's Innovation Council** presents "**Trash Bash**" under **INNOWIZION'25**, a celebration of innovation and environmental stewardship. This thrilling event invites you to turn ordinary trash into extraordinary treasures by designing functional, creative models using scrap materials. Step up and showcase your commitment to sustainability through your innovative ideas.

### **RULES:**

1. There are **two domains** of models for participants to choose - Car Based & Boat Based.
2. Candidates need to submit an **abstract** along with the G-form below.
3. Materials provided by **Team IIC** to participants include - DC Motor, Fan, Battery, wires, switch, Soldering and Glue Gun setup.
4. Participants need to bring the required Trash materials on their own.
5. There will be a **working/functionality round** in MPH where participants will build their models.
6. Final model will be tested against multiple judgement criteria like speed, utility, obstacles, amount and quality of materials and overall design.
